SPORTING NEWS
From Everywhere.MANIA FOR SPORT
Princeton Students Go Strong
on Athletic Exercises.Baseball and Football Are the
Most Popular Games.

Princeton, N. J., Dec. 6.—A mania for regular physical exercise seems to have taken possession of the student body at Princeton university, according to a report which has just been presented to the trustees' committee on morals and physical education. Fully seventy-eight per cent of the students are engaged in some form of exercise or athletic competition and the number of branches of sport in which contests are held has more than doubled in the past four years.

Dr. Joseph E. Raycroft, who presents the report on behalf of the department of hygiene and physical education, attributes much of the enthusiasm for sport to the great number of competitive games which have sprung up within the university, known as the intra-collegiate sports. These embrace fourteen different sports which, aside from the many individual contests in golf, tennis, handball and canoe racing, are represented by 140 teams. A number of men are on teams of more than one sport so that the total engaged in intra-collegiate sports in 1914, a hundred more than were actually in the university last year.

Few Left Out.
The actual number of individuals on these teams is 842. In addition to these there were last year 165 men on varsity and freshman intercollegiate teams and 195 students, not members of any competitive teams, are known to be regular workers at some form of physical exercise. This leaves but 221 men who, as far as the department could learn, took no regular exercise.

The freshman class at Princeton has in the past few years been required to exercise regularly three times a week. A result of this requirement is that seventy-four per cent of the sophomore class, for whom there is no regular exercise requirement, continued the previously acquired habit of taking regular exercise.

Total No. 2,248.
According to one method of computing the students who report for athletic squads and exercise groups the number is 2,248, while the total undergraduate attendance is only 1,463. This of course disregards the counting of the same men several times, but shows the active interest in varied sports.

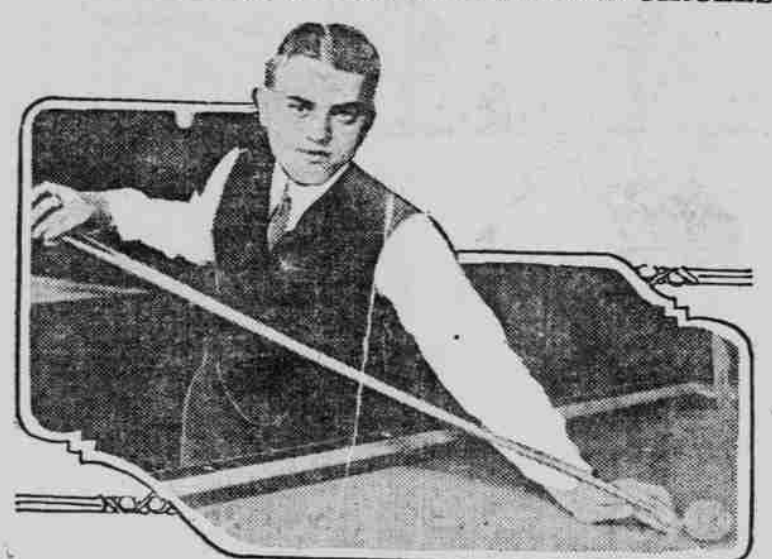

The most popular of the sports engaged in within the university, and all but football are represented, is basketball, which more than a fourth of the total competed in. Basketball, relay racing, indoor and outdoor track, and rowing are the other leaders in popularity in these intra-collegiate competitions.

Dr. Raycroft points out in his report that perhaps the most important fact of all is that these various lines of work call for more men than can be cared for during the afternoon hours with the present facilities. Says the report, "We cannot expect to reach a much larger percentage of the students until we make additional provision for organized exercise, outdoors and particularly indoors, and make it easier for them to get regular exercise without undue waiting and loss of time."

The situation represents a healthy growth in the direction of the ideal of the university of stimulating in the students the formation of habits of regular healthful exercise, and making it easy for them to learn and enjoy two or three of the simple contest games such as tennis, basketball and wrestling, that will not only improve their health and working capacity while in college but will be important factors in enabling them to realize their full possibilities in after years.

Box for Bantam Title Tonight.
New Orleans, La., Dec. 6.—"Kid" Williams of Baltimore, world's bantamweight champion, and Frankie Burns of Jersey City, early today declared their fitness for the 20-round bout for the title to be fought here tonight. Ed Smith of Chicago will referee. A number of wagers were reported at odds of 6 to 5 on Williams.

Set a New Bicycle Record.
New York, Dec. 6.—The seventeen teams in the six-day bicycle race had established a new world's record at 9 o'clock this morning, the ninth hour, all being tied at 211 miles, 9 laps, Granda leading. The previous record for the hour was 211 miles, eight laps.

WHO CAN BEAT HOPPE AT BALKLINE?
BIG QUESTION IN BILLIARD CIRCLES

Willie Hoppe.

New York, Dec. 6.—By the guessing what manner of player can defeat the champion. The question was discussed one evening last week at the Liederkreis club by men who take an active interest in billiards. One of the party was J. Ferdinand Poggenburg, who holds the American championship of international championship at 15-2 balkline. His version of the conundrum is:

Placed on the scratch mark at 500 points, Hoppe won all five games and in only one of them was he pressed, that being in his match with George Sutton, of Chicago, which he won by twenty-five points.

The champion averaged 32 36-77 for his 2,500 points and in addition broke the world's record for high run with a mark of 308, one point better than his previous record of 307.

With Hoppe rising victorious over the handicaps conceded to his opponents, billiard followers are now discussing the question of who can beat him.

ABOUT THE WOLF HUNT PUTS ON JITNEYS

Tribune Citizens Says They Have Been Misrepresented by a Kansas City Newspaper.

Coyote hunting at Tribune, Kan., has not been written up in the metropolitan papers as it took place according to statements made by Colonel George Thylfaunt and Colonel William Carter of Tribune who took part in the wolf hunt at Tribune November 15. A story in a Kansas City paper is causing the agitation. Lack of humanity on the part of the hunters in handling the coyotes appeared to be the principal theme of the story, says Colonel Thylfaunt and Carter, when in fact the animals were certainly the only way possible in which the lives of the hunters would not be imperiled. Hovey among the poultry and sheep has been caused by the coyotes and it was necessary to kill them.

Tigers Choose New Captain.
Columbia, Mo., Dec. 6.—Harry S. Lausing, of Columbia, was elected captain of the University of Missouri 1916 football team Saturday. Lausing began his second year as center this year, but was removed from the same by injuries soon after the season opened. His election came as a surprise to the student body, as the injuries prevented his playing enough of the past season to get a letter.

Conrad St. Marys Captain.
John Conrad has been elected captain of the 1916 football team of St. Marys college. Two years ago he won a place at guard on the official All-Kansas eleven and this year played a game which drew praise and favorable comment from many well known critics and authorities. A much feared man this year, he bids fair to be much better and more valuable next year.

Famous Football Star Dead.
Pittsburg, Pa., Dec. 6.—Harry (Doc) McChesney, 28 years old, one of the best known football players in the country a decade ago, is dead at his home here. He was formerly a member of the Chicago all-Americans, a team composed of former players, and of the famous Canton professionals.

A New Salina Coach.
Salina, Kan., Dec. 6.—At a meeting of the basketball men of Kansas Wesleyan, Dr. O. L. Loran, of the science department, was elected coach of the quintet. The coach-elect has been doing track and basketball coaching for the last seven years with a remarkable success, so it is expected that he will be able to turn out a winning team of coyote goal-tossers.

RHODES SELLS OUT

Topeka's Oldest Dealer in Second Hand Goods Will Retire from Business.

One of Topeka's oldest landmarks will soon be a thing of the past. The second hand store at the southeast corner of Tenth street and Kansas avenue, occupied by John Rhodes, has been placed on sale. This was announced by a large sign on the building.

Mr. Rhodes and his wife, who have been operating the store since Topeka was young, will travel for some time following the closing of the establishment. The merchandise in the store has been sold to an Oklahoma dealer in second hand goods.

The Rhodes store has been an object of comment for several years. The collection of goods on the outside of the building, together with the unpainted condition of the interior, gave the store an unprepossessing appearance, but at the same time aroused interest in it.

NATIVES LIVE LONGER

Foreign Born Population of Kansas Contribute Heavily to the Death List.

Kansas has a foreign born population of only eight per cent of the total

number, but the recent reports to W. J. V. Deacon, state registrar of vital statistics, indicate that this foreign element contributes about 14 per cent of the total number of deaths in the state.

"Of course it is true that a larger proportion of the foreign born population is engaged in the hazardous occupations than of the native population," Mr. Deacon pointed out. "However, these figures indicate generally that native born persons have a better conception of the proper methods of

living and sanitation that have the foreigners, for a large proportion of the deaths from natural causes can be traced directly to food or mode of life."

You can
whoop it up

about Prince Albert tobacco; yes, sir, get enthusiastic smoking it in a jimmy pipe, for it is the most go-to-it-early-in-the-a. m. smoke you ever jammed between your lips! The patented process fixes that—and cuts out bite and parch!

All you have to do to get an entirely new idea of how delightful a pipe can be is to uncork a supply of

PRINCE ALBERT
the national joy smoke

For it will dig-deep into your satisfaction-section. Because P. A. has everything pipe smokers yearn for. You talk about flavor, and coolness, and aroma! Prince Albert is a revelation. And when you add that Prince Albert will not bite or parch, you have some 100% facts to put a match to!

So, don't you frame-up-frets about the tobacco question. Meet Prince Albert face-to-face and get the news yourself that here is the tobacco you will like from the start and like all the time!

Here is a photograph of one of the finest types of Indians now living, Chief Eagle, an ardent pipe smoker, who has been on the Ridge Reservation. The Chief is 32 years old, and is one of the star attractions with "101 Ranch."

Prince Albert is sold everywhere in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidor and in that classy crystal-glass pound humidor with spot-ge-moistener top that keeps the tobacco fine-like-silk-always.
